Re: Cipollone v. Liggett Group, Inc., et al

Gentlemen:

I've just received a copy of the transcript of Dr. Mark's testimony of May 23, 1987, the day he started testifying about the relationship of tobacco smoke to the cardiovascular system. I am enclosing pages 656 and 657, in which he discusses his interest in that area when he was in Framingham, Massachusetts. Also enclosed are pages 658 through 663 inclusive which deal with the question of whether Dr. Mark intends to testify regarding the relationship between cardiovascular disease and cigarette smoking. On pages 659 and 660, Marc Edell explains that Dr. Mark will rely on his knowledge of literature on heart disease.

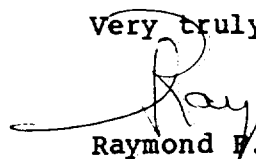

I thought you should have these pages as soon as possible so that we can decide our strategy for getting an additional day of deposition testimony.

If you think it is worthwhile to have a conference call on the subject, please advise as soon as possible.

Very truly yours,

Raymond F. Drozdowski
